DANGEROUS MUSIC

DANGEROUS MUSIC

TRACK • MIX • MASTER

Simple

Hit your choice of buttons and twist the threshold for radio-ready results

Smart Dyn Dual Slope Detection:
Automatically limits errant peaks while stealthily compressing the average

Auto Attack/Release:
Replace “guess” with “yes” for rapid-fire results

Transparent

Performs like an automated fader:
No more drawing vocal rides

True Stereo Dual Detector:
Traditional linking shares one detector, often resulting in a narrower image

Immaculate VCA:
Virtually no distortion even with 20dB of gain reduction

Powerful

Internal sidechain circuitry houses the audiophile soul of the compressor

Bass Cut:
Tightens the track without sacrificing the bottom end

Sibilance Boost:
Shave sibilance & shrill histrionics with zero post-compression hangover
